1. Select the statement that describes what happens during the Data Requirements stage

1 / 1 point

- ☒ Data scientists identify the necessary data content, formats, and sources for initial data collection.
- ☐ Data scientists collect the data needed for the model.
- ☐ Data scientists create a model and then map the data to the model.
- ☐ Stakeholders explain to data scientists the business problem they want to solve.

✓ **Correct**

Correct. The Data Requirements stage of the data science methodology involves identifying the necessary data content, formats, and sources for initial data collection.

2. Who determines how to collect and prepare the data?

1 / 1 point

- ☐ Database Administrators
- ☒ Data scientists
- ☐ Management
- ☐ Product owners

✓ **Correct**

Correct! Data scientists determine how to collect and prepare the data.

3. Which of the following statements is correct?

1 / 1 point

- ☒ Data scientists determine how to collect the data.

✓ **Correct**

Correct.

- ☒ Data scientists identify the data that is required for data modeling.

✓ **Correct**

Correct.

- ☒ Data scientists determine how to prepare the data.

✓ **Correct**

Correct.

- ☐ Data scientists ignore missing and out-of-range data values.
